Welcome to Advent Update

How do I reduce my costs?

How many times per day does that thought cross your mind? One way that Advent can help you reduce your costs is Equivalent to New ATMs. If you need to add or replace ATMs, we can save you 30% to 50% versus the price of new. If you need to upgrade your current fleet of ATMs, we can provide a program to upgrade and restore your existing ATMs to like new condition and keep you from having to replace them.

Besides saving you money, equivalent to new ATMs are one of the best ways to be a good environmental steward. An easy way to save money while going green!

Thank you for your continued business! We appreciate the opportunity to work with you and look forward to future endeavors.

Best regards,

David Thomason

Faces of Advent

Harry Pindell, Supervisor

Harry is responsible for production in our equivalent to new department. He supervises the workforce and maintains quality. Harry is in his eighth year with Advent.

Outside of Advent, Harry is about to become a first time father!

Product of the Month – Equivalent to New ATMs

We provide all models from all manufacturers. All equivalent to new ATMs are ADA compliant and look and operate "like new".

Our equivalent to new process:

- Perform a detailed check of all functions
- Completely disassemble the ATM
- Clean and paint
- Check all wiring and replace as needed
- Refurbish and test all subassemblies
- Replace CRT
- Reassemble ATM to your specifications
- Perform rigorous operational testing

Are your ATMs projecting the quality image that you desire? If not, we will provide quality refurbishment and make any required upgrades to your ATMs.

If you are in the market for an ATM

We will provide quality equivalent to new ATMs from our inventory.

Why Buy Equivalent to New ATMs?

You get more for less.

Buying an Equivalent to New ATM versus a new ATM will generally save 30% to 50%. This will save you thousands of dollars!

Improved quality.

Our ATMs are remanufactured and tested by qualified technicians versus an assembly line. According to one large bank customer, our out of box performance is much better than new.

Customization and Upgrade.

During the process, we can provide custom colors and accessories. For example, we have painted ATMs college colors, added surrounds and special heaters for extreme cold conditions. We have even had a bank customer send us their new ATMs for custom painting prior to installation because we could and the manufacturer could not.

Going Green.

Another benefit if equivalent to new ATMs is they are recycled. Most of us are interested in being good environmental stewards, and using equivalent to new ATMs is another way to make a positive contribution.

Equivalent to new helps you go green while saving you money.

Quotes from the Environmental Protection Agency:

"Recycling or reusing electronics conserves resources and cuts down the amount of pollution and gas emissions created when new products are manufactured."

"By properly recycling and reusing electronics and other products that contain toxic or hazardous materials, you'll help save resources and reduce the amount of harmful contaminants that enter our environment."
