Welcome to Advent Update

In this issue we are highlighting electronic security. Security is evolving and there are several new products that can increase your level of security while reducing cost. Whether you need equipment, UL monitoring or maintenance services we provide state of the art solutions to meet your security needs.

Thank you for your continued business! We appreciate the opportunity to work with you and look forward future endeavors.

Best regards,

David Thomason
President

Faces of Advent

Danielle Holden, Dispatch Coordinator

If you are an Advent service customer you probably know Danielle. She coordinates the activities of our technicians to provide the quality service you need. She is very proud of her relationship with her customers and makes sure that you are kept informed of the status of your service calls.

Danielle can be reached at 410-850-5400 ext. 0 or by email at adventservice@advent-inc.com.

Product of the Month – DMP Alarms

DMP is the most trusted name in financial institution security.

DMP has more than 20,000 installations throughout the Americas. Their products are designed specifically for financial institutions and provide the secure features required to provide the security you need.

Some of the features provide by Advent/DMP include:

- Network monitoring that allows monitoring via the internet
- UL AA AES encryption for secure encrypted data
- UL Alarm monitoring services.

DMP Entre' Access Control

 <p>The logo for DMP Entre' Access & Security Management features a stylized blue 'E' with a horizontal bar through it, surrounded by two curved lines. Below the logo, the word 'ENTRE' is written in a blue, spaced-out font, with a small 'TM' symbol. Underneath, the words 'ACCESS & SECURITY MANAGEMENT' are written in a smaller, blue, all-caps font.</p>	<p>Take control of your intrusion and access management.</p> <p>With DMP Entré, you can manage both intrusion and access control in one easy-to-use software application. System managers can now have fast, simple point-and-click control over every aspect of their security system.</p>
--	--

Features include:

- Intuitive graphical user interface for system monitoring and control
- All security management activities combined in a single platform
- Three system size options, with one suitable for almost every facility or organization
- Network system enables monitoring and control of facilities anywhere, from anywhere
- Web or Standard user clients or both available

Isotec Weapons Control Systems

 <p>A photograph showing a set of white-framed glass doors with multiple panes, set in a well-lit interior space. The doors are closed, and a red carpet is visible in the foreground.</p>	<p>Isotec Weapons Control Systems are the best way to protect your customers and employees from armed robberies.</p> <p>Isotec brand security portals prevent unauthorized entry by perpetrators with firearms and discourage robberies.</p> <p>Your customers will appreciate your efforts to keep them secure while in your branch.</p>
---	--

Benefits you will receive by installing a weapons control system include:

- Reduced physical threat to your customers and employees
- Eliminates contact with perpetrator(s)
- Attractive architectural design
- Eliminates employee turnover costs caused by armed robbery

related stress.

Equipment Maintenance Services

We provide a single source solution for your maintenance needs.

Servicing equipment and being qualified to provide service can be two very different issues. Our technicians are trained and qualified to service most bank equipment and are supported by our Technical Support Group. We provide excellent, timely service to our maintenance contract customers or on a bill work basis.

Service Agreement coverage can be structured to meet your product and servicing needs including:

- CCTV and Camera Systems
- Digital Video Surveillance Systems
- Drive In Equipment
- Money & Receiving Safes
- Night Depository Systems
- Teller Lockers and Safe Deposit Boxes
- Timelock and Combination Lock Service
- Undercounter repairs
- Vaults and Vault Doors
