VAULT DOORS & PANELS

EXCALIBUR VAULT DOOR

- Available in Class M, Class I, Class II or Class, III with right or left swing.
- Stainless steel cladding provides high durability with low maintenance.
- Two UL Listed Combination Locks provide single or dual control.
- 3-Movement, 144 hour time locks with reset feature in case of accidental over-wind.
- Built-in 80 CFM UL Emergency Ventilator for added protection.
- Attractive Acrylic Day Gate with optional Bar Style Gate available.
- Anti-friction bearings and Chrome finished handle for ease of opening.
- 36" Clear width with anti-skid sill, provides ample room for access.

VAULT PANELS

UL Listed vault panels are constructed of high strength concrete and steel. High strength modular panels provide the same strength and security as poured-in-place vaults, but require much less space. Modular panels install quickly and provide flexibility or future expansion or relocation. Available in Class M, Class I, Class II or Class, III.
