

TellerConnect by AdQue®

Would you like the option of putting a branch office anywhere? Now you can, with **TellerConnect by AdQue®**, the latest offering from Data Concepts, Inc. This "branch of the future" is no longer just a concept... It is available now!

Scenario

Friday afternoon after work, Joe and his family drive to the local mall. Paycheck in hand, Joe stops at his financial institution's local branch to make a deposit and get some cash back. The teller greets him by name and gives him a deposit slip. Joe fills it out, and submits the slip with his check.

While Joe waits, he watches an animated advertisement for Kids Club savings accounts.

When the teller gives him \$47.00 in cash back, Joe asks about opening a savings account for his daughter.

No problem. Joe fills out an account application, provides his drivers license for identification, and transfers \$100 from his checking account to the new savings account.

Joe chats briefly with the teller, picks up his receipts, and goes about his business.

A typical scenario, except that the *teller is five miles away, and Joe did all his banking through TellerConnect.*

Just Imagine...

- ◆ Imagine providing "face-to-face" teller services over long distances!
- ◆ Imagine putting a branch office anywhere - a mall, an airport, a farmers market!
- ◆ Imagine your advertising message delivered to a captive audience during transactions!

Meet your Customers' Wants and Needs

- ◆ Research shows that folks prefer to conduct financial business face to face with a teller. Now you can offer that feature anywhere by using TellerConnect, the latest addition to the AdQue suite of products.

TellerConnect — Technology In Action

- ◆ TellerConnect uses the latest technologies in video teleconferencing to bring your teller and the customer together, though they are miles apart. Communicate with state-of-the-art video cameras at each end of the transaction. Receive cash or check deposits, open accounts, dispense cash, scan identification cards... virtually anything that your teller can do in a branch office can be done at a **TellerConnect** kiosk. You can also print receipts, applications, session reports and much more.
- ◆ During the transaction time, your advertising message is displayed on the screen using the AdQue merchandising technologies that have a proven track record in hundreds of branch and main offices. Market your loans, advertise your special accounts for kids and students, publish your current rates. You can change your message within minutes through the AdQue updating features.

TellerConnect by AdQue® Support

Not Just a Pretty Face

Behind the display screen and fixtures resides the true heart of the **TellerConnect** system. It's what audiences don't see that our clients rely on every day.

TellerConnect by AdQue® is about service, and that translates into being supportive and accountable in every aspect of concept, design, fixtures, hardware, software, installation, screen graphics, training, support, and maintenance.

Find out more about TellerConnect by contacting Data Concepts, Inc. Ask for Terry Woodson and get started today with the branch of the future.
