

# ATM Cleaning and Inspection

Do your customers (or prospective customers) have a pleasant experience using your ATMs? Do you have a program in place to keep your ATMs in compliance with the ever changing regulations? Our ATM cleaning and inspection services can help provide the positive experience at the ATM and help keep you compliant with ATM regulations.

ATM cleaning services include:

- All surfaces are cleaned with products that repel dirt and grime and provide UV protection to help protect against damage caused by extensive sun exposure.
- Any litter is removed from waste receptacles and the area around the ATM.
- Before and after photos are provided to document the condition of your ATMs
- Inspection and exception report detailing items not covered such as vandalism, environmental, or vehicle damage
- Optionally, graffiti removal and vandalism repair will be responded to immediately

ATM inspection services include:

- Testing ATM functions (printer, keyboard, screen and card reader)
- Verifying ADA audio assist compliance
- Verifying Braille is present
- Verifying ADA height and reach compliance
- Check for proper placement of marketing and network logos and replace as needed with stock that you provide

# ATM Cleaning and Inspection

## ATM lighting inspections

Many states have minimum lighting requirements for ATM locations. ATMs with proper lighting provide a safer environment for transactions while poorly lighted ATMs can be dangerous and cause lawsuits. ATM owners should regularly check their sites at night to document compliance with regulations. We can help by providing scheduled inspections of your ATMs. Our ATM lighting programs include:

- A thorough check procedure for lighting levels at ATMs and night depositories with multiple light readings at each location
- Quarterly or semi-annual checks
- Help enhance customer safety and reduce potential crime at your ATMs and night depositories
- Help you remain compliant with state laws and reduce non-compliance fines
- Non compliance issues are noted and reported
